

MARTA PALMIERI

Marta Palmieri Italian, b. 1973

Marta Palmieri's ceramic works are characterized by the combination of painting and clay, honoring the nature of earth in its simplest expressions. Reflecting the environment through color, texture, and shadow, she pays homage to both the natural world around her while also embracing the inherent elements of her material di lei.

With a focus on compositional balance as well as juxtaposition of line and texture, Palmieri uses refractory clays shaped from to create her lightweight compositions. She uses multiple finishing techniques, layering glazes, oxidization, and etching to achieve varied, dynamic surfaces.

Palmieri has an extensive background in the arts; she studied visual art and architecture before attending the Fine Art Academy of Urbino, where she focused on painting, drawing, and sculpture. Her work di lei has been exhibited widely in galleries, museums, and competitions both within Italy and internationally. Her sculptures di lei are featured in public collections and museums around the world. She is represented by the Hostler Burrows Gallery (NY) and ESH Gallery (Italy). Since 2018 he has collaborated on the Adams project for PIETRE TROVANTI (Italy).
